* The intrinsic net asset value comparative has been based on the intrinsic net asset value reported in the 31 December 2015 interim results and therefore only represents a six-month movement in the intrinsic net asset value between 31 December 2015 and 30 June 2016. The intrinsic net asset value is before head office costs and CGT implications.

INTRODUCTION

GPI's major investments in the Food and Gaming & Leisure industries are all exposed to the South African consumer, who has come under unprecedented pressure over the past year. The consumer has faced a perfect storm of headwinds with rising food prices, fuel prices, interest rates and a zero-growth economy. GPI's investments have held their own in extremely tough trading conditions with significantly better results in the current year. As a result, headline earnings per share from continuing operations increased by 120% to 1.99 cents compared against a loss of 10.17 cents per share last year. The improved results indicate that the early stage food investments are migrating towards profitability, having reached a level of maturity where the scale of the businesses and resultant synergies allow for better efficiencies.

The past year has once again been a very active year for GPI on the investment front, resulting in a significant realisation of its investments. A further 25.0% of GPI Slots was sold to Sun International for R270.3 million and a 10.0% holding of SunWest and Worcester Casino to Tsogo Sun for R675.0 million. After the requisite taxes, GPI netted R858.7 million in cash from the two disposals. The proceeds from the disposals to Tsogo Sun will be received in equal instalments of R37.5 million per month until September 2017.

As highlighted in the interim results for the six months ended 31 December 2015, GPI will utilise the proceeds to reduce its gearing to levels appropriate in the current economy. To this end, GPI utilised the proceeds from the GPI Slots disposal to reduce its debt facilities by R178.9 million during the year. It will continue to reduce its debt facilities over the next year and is targeting a debt equity ratio of 18.0% by 30 June 2017.

INVESTMENT ACTIVITIES

Over the past year, the Group continued to restructure its investment portfolio in line with its strategy of increasing its investments in food, moving towards strategic investments in gaming & leisure and divesting from non-core investments. As a result the Group concluded a number of transactions during the year and the details of the material transactions have been disclosed below.

FOOD

During the year, the Group continued to expand and increase its investments in the food industry. The Group expanded its restaurant brands by acquiring the master franchise licences for two of the world's leading Quick Service Restaurant (QSR) brands in DUNKIN' DONUTS® and BASKIN-ROBBINS®.

The Group also acquired control of Grand Foods Meat Plant, the production facility which produces all of Burger King's beef burger patties. The details of these transactions are as follows:

Acquisition of Master Franchise Rights for Dunkin' Donuts and Baskin-Robbins:

On 22 January 2016, GPI acquired the South African Master Franchise licenses of Dunkin' Donuts and Baskin-Robbins for a combined cost of R12.3 million. The licences extend for an initial period of 10 years with an option to extend for a further 10 years. Dunkin' Donuts is one of the world's leading coffee and bakery chains, with over 11 500 restaurants in 40 countries. The terms of the Dunkin' Donuts licence require that GPI opens 8 corporate-owned restaurants and 210 franchised restaurants over 10 years.

Baskin-Robbins is the world's largest chain of speciality ice cream stores, with 7 600 stores in 50 countries. The terms of the Baskin-Robbins licence require that GPI opens 71 corporate-owned stores over a 10 year period. The master franchise licences of both Dunkin' Donuts and Baskin-Robbins give GPI the right of first refusal to enter Namibia, Botswana, Zambia and Mauritius.

Acquisition of Grand Foods Meat Plant

On 26 October 2015, the Group acquired a further 65.0% of Grand Foods Meat Plant from Excellent Holdings (Pty) Ltd and Nadesons Investments (Pty) Ltd (Nadesons Investments) for R35.8 million. Prior to the acquisition, the Group held 35.0% of the investment indirectly through Burger King, the acquisition increased the Group's effective holding to 96.9% and gave it control of the investment. Grand Foods Meat Plant was consolidated into the Group from the effective date of the acquisition and the Group recognised a fair value gain of R18.7 million on its existing 35.0% holding on consolidation.

GAMING & LEISURE

When the Group concluded the agreement to dispose of up to 70.0% of GPI Slots in 2014, it signalled the Group's move away from holding controlling interests in its Gaming & Leisure investments. During the year, the second tranche disposal of 25.0% of GPI Slots was concluded and resulted in the Group losing joint control of the investment and moving into a minority holding, with significant influence, with the investment now being controlled by Sun International.

In addition, the Group concluded two material transactions relating to its casino investments, SunWest and Worcester Casino (Pty) Ltd (Worcester Casino). The first was to recapitalise Worcester Casino. As a result of the recapitalisation, Worcester Casino has eliminated its debt burden and reported a profit for the year. This has been a significant shift for the investment, which had consistently been reporting losses.

The second transaction was to dispose of a 10.0% holding in both SunWest and Worcester Casino to Tsogo Sun Gaming (Pty) Ltd (Tsogo). The disposals represented a realisation of significant value for the Group and even more compelling was that the Group's control over SunWest was not affected. The details of these transactions are as follows:

GPI Slots disposal

On 5 April 2016, GPI concluded the second tranche disposal of 25.0% of GPI Slots to Sun International for R270.3 million. The Group has recognised a R55.3 million profit on the sale in the profit from continuing operations. The disposal resulted in GPI losing joint control of GPI Slots and as a result GPI has classified the 30.0% holding in the investment, which it will ultimately retain once all the disposal tranches have been concluded, as an Investment in Associate in the Statement of Financial Position.

Recapitalisation of Worcester Casino

On 16 October 2015, GPI acquired an additional 2.6 million shares in Worcester Casino for R30.1 million as part of a rights issue. Worcester Casino raised a total of R120.0 million in the rights issue and utilised the proceeds to reduce its debt facilities. The reduction of the debt facilities has improved the profitability of Worcester Casino significantly and as a result the Group was able to recognise a carrying value on the investment and will be able to recognise the earnings from the investment as equity-accounted earnings in the profit from continuing operations.

The Group recognised R0.9 million in earnings from Worcester Casino for the year. However, in order to recognise these earnings, the Group was required to recognise all losses which were incurred by Worcester in previous financial years, which the Group was not able to recognise because the investment had been impaired to a nil value. As a result, a once-off loss of R9.1 million was recognised in equity-accounted earnings during the year.

Disposal of a 10.0% holding in SunWest and Worcester Casino

On 29 June 2016, the Group sold a 10.0% economic interest in SunWest to Tsogo for R642.5 million. In addition the Group disposed of a 10.0% economic and voting interest in Worcester Casino, also to Tsogo for R32.5 million.

It was agreed that the combined proceeds of R675.0 million would be paid through an upfront instalment of R112.5 million, which the Group received on 30 June 2016, with the balance of R562.5 million to be paid in 15 equal instalments of R37.5 million between July 2016 and September 2017. As a result of the deferred receipt of the proceeds, the Group has recognised the proceeds at their present value of R640.9 million at 30 June 2016 of which R528.4 was deferred. As a result of the sale, a reversal of impairment (gain) of R21.4 million relating to Worcester Casino was recognised in profit from continuing operations.

NON-CORE INVESTMENTS

During the year, the Group reclassified a number of investments as non-core investments. Essentially these are all the investments which do not fall into either the Food or Gaming & Leisure segments. The Group is investigating ways in which it can effectively divest from these investments. During the year the following non-core investment was disposed.

Properties

On 9 June 2016, the Group entered into a agreement to sell its office building in Gauteng to GPI Slots.

GROUP FINANCIAL REVIEW

The Group uses headline earnings to assess the underlying investments' contribution to the Group's earnings. The reason for using headline earnings is that it eliminates the one-off effects of the Group's investment activities and therefore provides a comparable view of the Group's continuing earnings.

The Group's headline earnings have come under pressure since its initial investment into Food during the 2013 financial year with the total headline earnings per share declining from 18.23 cents per share for the year ended 30 June 2013 to 1.99 cents per share in the current year. However, to fully understand the earnings profile of the Group over this period, the headline earnings per share must be split between the earnings from continuing operations and the earnings from discontinued operations. The table below depicts this split and shows the earnings profile of the earnings from continuing operations, which came under significant pressure in the years ending 30 June 2013 (10.53 cents loss per share), 30 June 2014 (22.97 cents loss per share) and 30 June 2015 (10.17 cents loss per share). However, the earnings for current year ended 30 June 2016 shows a return to profitability with 1.99 cents per share as a result of a significant improvement in the operating performance of the food, related investments and, in particular, Burger King. Therefore, while the combined headline earnings per share decreased by 81% from 10.53 cents last year to 1.99 cents this year, the headline earnings per share from continuing operations increased by 120% from 10.17 cents loss to 1.99 cents profit in the current year.

ABRIDGED AUDITED FINANCIAL STATEMENTS (continued)

for the year ended 30 June 2016

DIVIDENDS

On 13 April 2016, GPI declared an ordinary dividend of 15.0 cents per share in respect of the profits relating to the 2015 financial year, which amounted to R71.5 million. GPI's strategy is to remain a dividend-active Company and the possibility of declaring a dividend relating to 2016 profits will be considered once future cash flows can be determined with more certainty.

CAPITAL STRUCTURE

The Group has recognised that while its Food investments are in its early or start-up phase and currently not contributing to the Group's earnings, the Group should be taking a conservative view on its gearing. Over the past 36 months, the Group increased its gearing levels from 11% to in excess of 35.0%, in order to fund the start-up of its Food businesses and, in particular, Burger King.

As a result of the Group's part disposals in its gaming and leisure investments, it has generated a significant amount of proceeds which amongst other initiatives, will also be used to reduce the overall gearing in the Group, in line with the lower end of the Group's targeted debt equity range of between 20.0% and 35.0%. At 30 June 2016, the Group had used some of the proceeds from the second tranche disposal of GPI Slots to reduce its current debt levels by R178.9 million to R642.9 million. This has resulted in a reduction in the debt equity ratio of 8.4% from 35.5% last year to 27.1%.

At year-end, the Group's debt equity ratio is within the target range. However, the Group has committed to utilising a portion of the proceeds from its part disposal of SunWest to repay the full Standard Bank credit facility of R225.0 million over the 12-month period between 1 July 2016 and 30 June 2017, which will have the effect of further reducing the debt equity ratio.

The local political and economic environment has caused a lot of uncertainty in the local credit markets and the Group's exposure to the South African consumer has created further uncertainty around the Group which has resulted in a significant increase, over the past year, in the cost of debt available to the Group. Therefore, as part of the debt reduction process, the Group has identified the facilities which are relatively cheap in comparison to the prevailing market rates and will look to retain those facilities, such as the Spur preference share facilities. The facilities which are being reduced are the Group's most expensive facilities and are costly in comparison to the prevailing market rates.

INTRINSIC NET ASSET VALUE (iNAV) AT 30 JUNE 2016

JSE Code	GPL
Share price at 30 June 2016 (cents)	350
Shares outstanding (excl Treasury Shares) (m)	464
Market Capitalisation at 30 June 2016 (R'm)	1 537
iNAV at 30 June 2016 (cents)	681
Book Value NAV at 30 June 2016 (cents)	499

As at 30 June 2016, GPI management has valued the GPI Group on a sum of the parts (SOTP) basis at 681 cents per share (excluding head office costs and CGT impact). This represents a 10.7% increase in the intrinsic net asset value in the six months since 31 December 2015, where management's valuation of the Group was 615 cents per share (excluding head office costs and CGT impact).

The GPI share closing price at 30 June 2016 was 350 cents per share, which when compared against the year-end iNAV implies it is trading at a 49% share price discount.

The table below provides a detailed breakdown of the 30 June 2016 iNAV by investment:

Company	Valuation methodology	100% Equity value R'000s	GPI holding %	GPI Equity value R'000s	Related Holding Co borrowings R'000s	Intrinsic NAV R'000s	% of portfolio

Number of issued ordinary shares ('000s) excluding treasury shares						**464 005**	
INAV per share (cents)						**681**	

1 Dunkin' Donuts and Baskin-Robbins are being carried at a nil asset value as neither of these brands have commenced operations. GPI paid R12.3 million for both the Master franchise licences and invested a further R5.6 million up to 30 June 2016 to fund the set-up costs of both the brands.

2 GPI Sold 10% of SunWest to Tsogo for R642.5 million which implies an equity value for 100% of SunWest of R6 425.0 million and an intrinsic net asset value for GPI's remaining 15.1% holding of R745.2 million. GPI also sold 10% of Worcester Casino to Tsogo for R32.5 million which implies an equity value for 100% of Worcester Casino of R325.0 million and an intrinsic net asset value for GPI's remaining 15.1% holding of R49.1 million. If the recent transaction values had been used as the basis for valuation on both these investments, GPI's intrinsic net asset value would have increased to R3 276.6 million and the intrinsic net asset value per share would have increased to 706 cents.

3 The proceeds from the third tranche disposal of GPI Slots is expected to be R263.8 million, the capital gains tax on disposal is expected to be R59.1 million and as a result the net proceeds from the disposal are expected to be R204.7 million.

4 The recent transaction value represents the Group's portion of the proceeds agreed on the sale of Grand Linkstate; refer to the subsequent events section of this report for further details on the sale. The proceeds represent a recovery of the Group's shareholder loan to Grand Linkstate and therefore no capital gains tax will be raised on the disposal.

5 The total proceeds from the part-sale of Worcester Casino and SunWest amounted to R675.0 million. Tsogo paid an upfront instalment of R112.5 million on 29 June 2016, which GPI utilised on 30 June 2016 to pay R77.7 million in capital gains taxes related to the sale. The deferred proceeds at 30 June 2016 amounts to R565.5 million, which Tsogo will repay in 15 equal monthly instalments of R37.5 million starting on 15 July 2016 and ending on 1 September 2017.

The other Group companies' assets and liabilities includes the remaining proceeds receivable of SunWest.

REVIEW OF INVESTMENTS' OPERATIONS

FOOD

BURGER KING

Stand-alone results for the year

Burger King continued its network expansion across South Africa during the year and added 24 new restaurants to the network, taking the total number of restaurants to 62 at 30 June 2016. The average monthly store revenues (ARS) reduced by 20% from R1.0 million last year to R0.8 million this year, largely as a result of the consumer coming under significant pressure during the year as a result of the weak economy and rising prices. However, despite the pullback in the ARS, Burger King's total revenue for the year increased by 56% from R307.8 million last year to R485.2 million this year.

The Food industry was negatively affected by the drought conditions throughout Southern Africa over the past year which resulted in significant increases in food prices. However, as a result of the continued localisation on their inputs, Burger King showed improved gross margins. The restaurant operating model was optimised during the year which resulted in an increase in the average restaurant EBITDA percentage from 0% last year to 3% this year and R17.9 million increase in the total restaurant EBITDA from a loss of R1.3 million last year to a profit of R16.5 million for the year.

The depreciation and amortisation costs for the year of R45.4 million were R17.9 million higher than the R20.1 million cost incurred last year. The increase is as a result of the network expansion during the year, where the average CAPEX per new restaurant opened during the period amounted to R7.7 million. The interest expense increased significantly during the year from R0.6 million last year to R20.8 million this year as a result of interest being charged on the shareholder loan from GPI with effect from 1 January 2016. A tax credit of R26.8 million has been recognised on the assessed loss for the year, which is 13% higher than the credit recognised last year, as a result of the increases in the corporate costs, depreciation and inter-group interest charges. The increased charges also resulted in a 5% increase in the net loss after tax for the year, which increased from R72.1 million last year to R75.9 million this year.

Investment's contribution to Group headline earnings for the year

Burger King's contribution to the Group headline earnings for the year amounts to a loss of R29.9 million (2015: R62.6 million loss), which is after the elimination of inter-group profits of R12.5 million (2015: R0.1 million) and inter-group interest of R20.4 million (2015: Rnil); adding back non-controlling interests of R12.4 million (2015: R9.3 million), and profits on property, plant and equipment of R0.7 million (2015: Rnil).

DUNKIN' DONUTS AND BASKIN-ROBBINS

Dunkin' Donuts and Baskin-Robbins incurred combined costs of R5.6 million to acquire their respective master franchise licences and to set up their corporate head offices. There were no material inter-group charges included in the costs and as a result the two brands contributed a loss of R5.6 million to the Group headline earnings.

GRAND FOODS MEAT PLANT

Stand-alone results for the year

Grand Foods Meat Plant is exposed to Burger King indirectly through their agreement with Burger King's main supplier, Vector. As a result of Burger Kings' 56% increase in revenue, Grand Foods Meat Plant's revenue increased by 120% from R31.4 million last year to R69.1 million this year. This resulted in a R0.1 million profit after tax for the year, which was 107% higher than the R1.5 million net loss after tax incurred last year.

Investment's contribution to Group headline earnings for the year

Grand Foods Meat Plant's net profit after tax for the year of R0.1 million (2015: R1.5 million loss) was reduced by R0.2 million (2015: R1.3 million added back) to take into consideration the share of profits relating to the majority shareholder during the period the investment was held as an associate during the year. As a result of this adjustment, Grand Foods Meat Plant contributed a loss of R0.1 million (2015: R0.8 million loss) to the Group headline earnings for the year.

MAC BROTHERS CATERING EQUIPMENT

Stand-alone results for the year

Mac Brothers increased their revenue by 15% to R267.7 million (2015: R233.9 million) as a result of a 28% increase in local catering equipment sales (excluding Burger King) which increased from R103.1 million last year to R131.7 million this year, and a 47% increase in cold room and extraction sales which increased from R17.2 million last year to R25.3 million this year. The operating costs for the year amounted to R66.2 million which is 29% higher than the operating costs of R51.5 million incurred last year. The increase in costs is as a result of an increase in head count to support the increased operations and building rental charges.

The EBITDA for the year of R18.2 million is 107% higher than the R8.8 million EBITDA from last year. Deprecation for the year of R4.2 million increased by R1.7 million and the interest costs of R3.7 million also increased by R1.7 million when compared to last year.

Net profit after tax for the year of R7.3 million increased by 78% from last year's net profit after tax of R4.1 million.

Investment's contribution to Group headline earnings for the year

Mac Brothers' net profit after tax for the year of R7.3 million was reduced by R5.6 million to eliminate inter-group profits for the year, increased by R1.3 million to eliminate the inter-group interest expense and by R4.5 million to eliminate the tax charge related to the inter-group disposal of buildings. After these adjustments, Mac Brothers contributed a profit of R7.5 million to the Group headline earnings.

GAMING

SUNWEST

Stand-alone results for the year

SunWest's revenue for the year increased by 4% from R2 404.2 million last year to R2 488.0 million this year. Its EBITDA decreased by 0.2% to R941.8 million for the year (2015: R943.5 million) and its net profit after tax decreased by 3.9% to R497.9 million for the year (2015: R515.3 million).

GrandWest

GrandWest Casino's operations were negatively affected by the weak local economy and as a result only realised a 1.2% increase in its revenue to R2 178.0 million (2015: R2 152.0 million). In addition, the interest costs for the year increased by 13% as a result of an increase in the debt facilities of R120.0 million during the year. GrandWest's net profit after tax for the year amounted to R497.9 million which is 3.7% lower than the net profit after tax of R516.8 million last year.

Table Bay Hotel

In contrast to GrandWest Casino, the Table Bay Hotel benefited from the weak rand value and increased their revenue by 23% to R310.3 million (2015: R252.5 million) and their net profit after tax by 120% to R3.7 million for the year from a loss of R18.6 million last year.

Investment's contribution to Group headline earnings for the year

GPI's 25.1% share of SunWest's earnings for the year amounts to R125.0 million, which were reduced by R2.0 million for transaction fees relating to the part disposal of the investment during the year and by R12.5 million for the interest costs related to GPI's debt funding relating to the investment. The earnings were increased by R0.2 million to eliminate GPI's share of SunWest's loss on disposal of property, plant and equipment to provide a profit contribution of R110.7 million to the Group headline earnings for the year.

GPI SLOTS

Stand-alone results for the year

GPI Slots increased their revenue by 16.9% from R799.6 million last year to R934.7 million this year. This was as a result of an additional 155 Limited Pay-out Machines (LPMs) being added to the national network during the year and a 9% increase in the average Gross Gaming Revenue (GGR) per machine per day from R660.0 last year to R721.52 this year. During the year GPI Slots were able to control the rate at which their operating costs increased which resulted in their EBITDA percentage increasing from 22.8% last year to 23.4% this year, and a 19% increase in their total EBITDA to R218.3 million (2015: R182.1 million). Their depreciation for the year of R74.8 million was 28% higher than last year due to the increase in the number of active LPMs. Their finance costs for the year of R25.9 million also showed a significant increase of 61% when compared to last year's costs of R16.1 million, which is due to the fact that interest was only charged on the shareholder loans for six months of the prior year and for the full year this year. As a result of these increased costs, GPI Slots Net Profit Before Tax increased at a lower rate of 8% year on year to R120.4 million (2015: R111.7 million). During the year GPI Slots recognised a deferred tax asset of R26.1 million on the assessed losses which had previously been incurred in its Gauteng businesses, this resulted in a 63% reduction in its consolidated tax charge which reduced from R33.4 million last year to R12.2 million this year. The effect of the deferred tax recognition and the improved performance of GPI Slots resulted in a significant increase of 38% in its Net Profit After Tax for the year to R108.2 million (2015: R78.3 million).

GPI Slots spent a total of R74.8 million during the year on CAPEX, which is 28% higher than last year where they spent a total of R58.6 million. The majority of the CAPEX for the year was spent on Gaming Machines and Equipment (R69.9 million).

Investment's contribution to Group headline earnings for the year

GPI's 30.0% share of GPI Slots' earnings for the year amounts to R32.4 million, which was reduced by R2.0 million for transaction fees related to the part disposal of the investment during the year and a change in the Capital gains rate used amounting to R2.7 million and as a result GPI Slots contributed a R27.7 million profit to the Group headline earnings.

OTHER

CENTRAL COSTS

The Group's net central costs for the year amounted to R67.3 million, which is 12% lower than the central costs of R76.3 million last year as a result of on an optimisation of the Group's head office costs.

SUBSEQUENT EVENTS

Disposal of properties

On 22 August 2016, the Group concluded an agreement for the sale of two industrial buildings, tenanted by Mac Brothers, for R59.5 million. The properties are situated in Epping, Cape Town and in Sabenza in Johannesburg. Mac Brothers will enter into a long-term lease with the new owners on similar terms to their existing inter-group lease which has market-related terms. The transfer of the title deeds have been submitted to the deeds office and the proceeds will only be paid on successful transfer of the properties, which is expected to be concluded by November 2016. The Group will utilise the proceeds to repay the SCM Term Loan 2. The carrying value of the properties at 30 June 2016 is R51.4 million.

On 31 August 2016, the Group concluded an agreement for the sale of its industrial building situated in Atlantis, Cape Town for R35.0 million. The title deed has been submitted to the deeds office and the proceeds will only be paid on successful transfer of the property, which is expected to be concluded by November 2016. The Group will use the proceeds to repay a portion of the SCM Term Loan 3. The carrying value of the property at 30 June 2016 is R22.8 million.

On 31 August 2016, the Group concluded an agreement for the sale of its industrial building situated in Goodwood, Cape Town for R5.7 million. The title deed has been submitted to the deeds office and the proceeds will only be paid on successful transfer of the property, which is expected to be concluded by November 2016. The carrying value of the property at 30 June 2016 is R6.8 million.

Disposal of Grand Linkstate

On 12 August 2016, the Group sold its 51.0% holding in Grand Linkstate to EOH Limited (EOH) for R0.9 million. The minority shareholders concurrently sold their 49.0% holding to EOH for R0.9 million. The Group entered into a three-year service level agreement with EOH to provide the network and desktop support which Grand Linkstate had provided to the Group.

Disposal of Grand Sport

On 1 September 2016, the Group sold its 100% holding in Grand Sport to GPI Slots for R10.0 million. The conclusion of the disposal is contingent on obtaining the required approvals from the Western Cape Gambling and Racing Board, which is expected to be obtained before the end of December 2016.

Share repurchase

Between 1 July 2016 and 9 September 2016, the Group acquired 20.4 million GPI shares for R73.8 million. The shares are being held as treasury shares and were acquired under the general authority granted by the shareholders at the AGM held on 2 December 2015.

RELATED-PARTY TRANSACTIONS

On 26 October 2015, the Group acquired 5.0% of GF Meat Plant from Nadesons Investments for R2.9 million. Hassen Adams and Alan Keet are both Executive Directors of GPI and are affiliates of Nadesons Investments.

In addition to this transaction, the Group, in the ordinary course of business, entered into various transactions with related parties consistent with those as reported at 30 June 2015. During the year, employees exercised share options with the strike price settled by both loan financing and cash.

DIRECTORATE

On 9 September 2016, Tasneem Karriem was appointed as an Executive Director. Tasneem has been part of the GPI executive management team since 20 July 2015 and has been responsible for the corporate finance activities of the Group since joining. She will continue to lead the Group's corporate finance activities in her capacity as an Executive Director.

PROSPECTS

The upcoming financial year is going to be approached by the Group with a significant amount of optimism despite the anticipated strong headwinds caused by a sustained weak local economy. The Group will continue to receive the monthly instalments of R37.5 million per month from Tsogo for the part disposal of SunWest and Worcester Casino, and will receive a total of R450.0 million during the course of the 2017 financial year. The Group will utilise the proceeds to repay its R225.0 million revolving loan facility which is expected to reduce its debt equity ratio to 17.6%.

The Group's focus during the next financial year will be on delivering on its strategy to grow its Food business which includes the continued improvement in the profitability of Burger King, launching both Dunkin' Donuts® and Baskin-Robbins® and unlocking the synergies between the various Food investments. In addition, the Group will look to continue investing in Food businesses via premium restaurant brands and supply chain services and products to support the restaurant brands.

The Group will remain dividend active and will look to realign its dividend policy to align its ordinary dividends with the Group's earning profile.

NOTES TO THE FINANCIAL INFORMATION

for the year ended 30 June 2016

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The abridged audited Group financial statements for the period ended 30 June 2016 are prepared in accordance with the requirements of the JSE Listings Requirements for abridged reports, and the requirements of the Companies Act applicable to summarised financial statements. The Listing Requirements require abridged reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting.

The abridged Group financial statements do not include all the information required by IFRS for full financial statements and should be read in conjunction with the 2016 audited Group annual financial statements. The accounting policies applied in the preparation of the audited Group annual financial statements, from which the abridged Group financial statements were derived, are in terms of IFRS and are consistent with the accounting policies applied in the preparation of previous audited Group financial statements.

These abridged Group financial statements are not audited but are extracted from audited information. The audited Group annual financial statements were audited by Ernst & Young Inc., who expressed an unmodified opinion thereon. The audited Group annual financial statements and the auditor's report thereon are available for inspection at the Company's registered office. The Directors take full responsibility for the preparation of these abridged Group financial statements and the financial information has been correctly extracted from the underlying audited Group annual financial statements.

These abridged Group financial statements have been prepared under the supervision of the Financial Director, Mr Dylan Pienaar CA(SA).

NOTES TO THE FINANCIAL INFORMATION (continued)

2 ASSETS HELD FOR SALE

GPI Slots:
On 05 April 2016, the second of three tranches to dispose up to 70.0% of GPI Slots to Sun International was concluded. In this tranche, the Group sold a 25% holding to Sun International for R270.3 million, which reduced the Group's holding to 49.9%.The carrying amount was R215.0 million, which gave rise to a profit on disposal of R55.3 million. In terms of the GPI Slots shareholders agreement, which came into effect on 30 December 2014, Sun International and the Group controlled GPI Slots jointly, until such time as Sun International's holding increased above 50.0%, which occurred once the second tranche disposal had been concluded. As a result, the Group's control over GPI Slots moved to significant influence after the second disposal and the investment in GPI Slots have been classified as an investment in associate.

19.9% of the 49.9% investment in GPI Slots represent the holding that the Group has committed to dispose in the third tranche and has continued to be recognised as an investment held-for-sale subsequent to the second tranche disposal and the Group's loss of control of the investment.

30.0% of the 49.9% investment in GPI Slots represents the holding that the Group has not committed to sell and has been recognised as an investment in associate under non-current assets.

21 Friesland Drive
During the year, the Group entered into an agreement to sell the property situated at 21 Friesland Drive to GPI Slots.

The assets and liabilities included in assets classified as held-for-sale and liabilities associated with assets held-for-sale are as follow:

3. BUSINESS COMBINATION

3.1 Current year business combination

Grand Foods Meat Plant

On 26 October 2015, the Group acquired a further 65% shareholding of GF Meat Plant for R35.8 million, including R3.3 million for repayment of the shareholder loan, increasing its effective shareholding to 96.9%. The increased holding gave the Group control of the investment that had been previously classified as an investment in associate. As a result, GF Meat Plant was consolidated into the Group results with effect from 26 October 2015.

The initial 35% investment was increased to its fair value of R17.5 million resulting in a fair value gain of R18.7 million being recognised in profit or loss from continuing operations. The key unobservable inputs were a discount rate of 19.0% and a terminal growth rate of 5.5%.

All the assets purchased and the liabilities assumed in the acquisition were identified at their fair values and were recognised separately from goodwill. No intangible assets were recognised during the identification process. Goodwill of R53.9 million was recognised as part of the business combination and represents the expected value creation within GF Meat Plant as a result of the opportunity to trade with Burger King during their expansion.

The table below provides an analysis on the values recognised:

	26 October 2015 R'000s
Economic and voting interest acquired	65%
Revenue since acquisition	44 739
Profit since acquisition	(65)
Revenue if acquired 1 July 2015	69 052
Profit if acquired 1 July 2015	(51)

4. BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing the net profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares (WANOS) in issue during the year.

Diluted earnings per share amounts are calculated by dividing the net profit for the year attributable to ordinary shareholders by the diluted WANOS in issue.

Headline earnings per share amounts are calculated by dividing the headline earnings for the year attributable to ordinary shareholders by the WANOS in issue for the year.

Diluted headline earnings per share amounts are calculated by dividing the headline earnings for the year attributable to ordinary shareholders by the diluted WANOS in issue for the year.

5. FAIR VALUE MEASUREMENT

Investment	Effective Holding 2016	2015	Description of business
Spur	10.00%	10.00%	Spur Corporation operates a franchise restaurant business with six brands in South Africa and internationally.
Atlas Gaming	4.95%	0.00%	Atlas Gaming is a gaming software and machine development Company based in Melbourne, Australia.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Other techniques for all inputs which have a significant effect on the recorded fair value and are observable, either directly or indirectly.

Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

NOTES TO THE FINANCIAL INFORMATION (continued)

5. FAIR VALUE MEASUREMENT (continued)

As at 30 June, the Group held the following instruments measured at fair value:

2016	**Level 1 R'000s**	**Level 2 R'000s**	**Level 3 R'000s**	**Total R'000s**
Available-for-sale investment – Spur[1]	–	–	305 036	305 036

Total	**–**	**–**	**307 355**	**307 355**

2015	Level 1 R'000s	Level 2 R'000s	Level 3 R'000s	Total R'000s
Available-for-sale investment – Spur[1]	–	–	350 064	350 064
Total	**–**	**–**	**350 064**	**350 064**

	Spur		**Atlas Gaming**		**Total**	
	2016 R'000s	2015 R'000s	2016 R'000s	2015 R'000s	2016 R'000s	2015 R'000s
Opening balance	350 064	–	–	–	350 064	–
Acquisitions	–	294 657	5 787	–	5 787	294 657
Impairment	–	–	(3 468)	–	(3 468)	–
Unrealised fair value (losses)/gains on available-for-sale investments	(45 028)	55 407	–	–	(45 028)	55 407
Unrealised fair value (losses)/gains on available-for-sale investments	(37 009)	45 064	–	–	(37 009)	45 064
Deferred tax	(8 019)	10 343			(8 019)	10 343
	305 036	350 064	2 319	–	307 355	350 064

1 *Available-for-sale investment – Spur*

The carrying value of the investment in Spur at 30 June 2016 of R305.0 million is made up of the original acquisition price of R294.7 million and fair value adjustments of R10.3 million (2015: R55.4 million). The Group's investment in Spur is subject to a trading restriction linked to the Group's empowerment credentials. The restriction expires on 29 October 2019, after which the instrument may be traded without restriction. The fair value of the investment has been measured by applying a tradability discount of 3% per year remaining on the restriction against the market price of Spur, as quoted on the JSE. The tradability discount was determined with reference to the agreements which govern the trading restrictions and industry standards applied to empowerment transactions. As the terms of the trading restrictions are unobservable the instrument has been classified under level 3, had the trading restrictions not been in place, the instrument would have been classified under level 1. A change of 1.0% in the discount rate used to determine the fair value at the reporting date would have increased/decreased other comprehensive income after tax by R2.6 million (2015: R3.2 million).

6. SEGMENT ANALYSIS

The chief decision-makers are considered to be the members of the GPI Executive Committee, who review the Group's internal reporting firstly by industry and secondly by significant business unit. The chief decision-makers do not review the Group's performance by geographical sector and therefore no such disclosure has been made. During the current year, the Group's internal reporting changed to reflect certain costs (mainly IT and rental costs) before the effect of consolidation eliminations and as a result the measurement basis for segment information changed. The chief decision-makers also reassessed the segments and as a result identified the following segments: Food, Gaming, Group costs and Non-core. The prior year results, in the segment report have been restated to reflect these changes.

NOTES TO THE FINANCIAL INFORMATION (continued)
