News Release

15 March 2011

SUNRISE DAM, AUSTRALIA - UPDATE

AngloGold Ashanti Ltd's Sunrise Dam Gold Mine, situated 56 kilometres south of Laverton in Western Australia, has been impacted by unprecedented heavy rains over the past month. While open pit mining has now resumed, underground mining remains suspended for safety reasons, with the expectation that Sunrise Dam will achieve normal mining rates in the June Quarter. AngloGold Ashanti is therefore expecting that first quarter guidance of 1.04Moz will be negatively impacted by approximately 20,000 ounces with a consequential impact on unit total cash costs. The full year production guidance for the Group of 4.55Mozs to 4.75Mozs remains unchanged.
