Environmental, Social and Governance Policy

Sibanye-Stillwater conducts its business in an ethical and responsible manner for the benefit of all stakeholders in accordance with the Group’s Integrated Governance Framework.1,4

The Group seeks to build a sustainable post-mining economy, within its geographical footprint through the development of programmes that contribute and support our ESG strategy.

Sibanye-Stillwater commits to:

Integration2

- Craft an ESG strategy and operating framework with clear performance targets and objectives.
- Embed ESG interests in Company decisions.
- Measure ESG performance at Board and Executive level with clear CEO accountability.
- Incentivise continuous improvement in ESG performance.
- Establish management systems, supported by enabling technologies.
- Engage openly and transparently with all stakeholders in regard to ESG disclosure.
- Work with business partners and suppliers to create an enhanced consciousness in responsible mining practices.

Environmental3

- Protect the environment, prevent incidents and minimise harm through proactive management.
- Design and implement a closure plan that incorporates concurrent rehabilitation and post-mining land uses in conversation with local communities and government.
- Drive resilience of ecosystems supporting a net gain in biodiversity.
- Respect legally protected areas and heritage sites.
- Sustainably use and source water resources through conservation and effective and efficient management programmes and initiatives.
- Manage air quality proactively to reduce emissions in line with global protocols.
- Promote awareness and drive initiatives to combat the impact of global warming and climate change.
- Reduce, re-use and recycle all types of wastes and products containing metals and minerals where practical and economically feasible.
- Apply a comprehensive risk-based management approach to tailings storage facilities through all stages of their lifecycles.

Social4

- Invest in and support the institutional development of affected communities with the intent to ensure that the economic benefit uplifts communities.
- Respect and value fundamental human rights, cultural heritage and indigenous traditions of the workforce, communities and other stakeholders.
- Understand the local socio-economic context for engaging with Indigenous Peoples and host communities in line with the human rights principle of free, prior and informed consent (FPIC).
- Ensure that any resettlement that cannot be avoided is undertaken such that resettled parties are constructively engaged and treated fairly.
- Adopt responsible health, safety and labour practices.
- Train workers on their health and safety responsibilities.
- Implement monitoring programmes based on occupational exposures.
- Drive environmental, health and safety education and awareness initiatives to improve all stakeholder livelihoods.

Governance1

- Ensure that the Board comprises knowledge, skill, experience, diversity and independence for it to discharge its governance role and responsibilities objectively and effectively.6
- Comply with all legal and regulatory requirements and voluntary obligations and responsible mining principles the company subscribes to.
- Deploy effective risk management strategies, taking into consideration ESG risks and stakeholder perceptions of risks.
- Adhere to the requirements as set out in Sibanye-Stillwater’s policies, position statements and procedures.
- Ensure that the company’s performance targets include financial and non-financial measures and supports its values in being a responsible corporate citizen.6
- Ensure that the organisation remunerates fairly, responsibly and transparently to promote the achievement of strategic objectives and positive outcomes in short, medium and long term.8
- Ensure that assurance services and functions enable an effective control environment and that these support the integrity of information for internal decision-making and of the organisation’s external reports.10
