Forward-looking statements may be identified by the use of words such as "target", "will", "would", "expect", "can", "unlikely", "could" and other similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These forward-looking statements, including among others, those relating to our future business prospects, financial positions, debt position and our ability to reduce debt leverage, plans and objectives of management for future operations, plans to raise capital through streaming arrangements or pipeline financing, our ability to service our Bond Instruments (High Yield Bonds and Convertible Bonds), our ability to achieve steady state production at the Blitz project and the anticipated benefits and synergies of our acquisitions are necessarily estimates reflecting the best judgement of our senior management and involve a number of known and unknown risks, uncertainties and other factors, many of which are difficult to predict and generally beyond the control of Sibanye-Stillwater, that could cause Sibanye-Stillwater's actual results and outcomes to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. As a consequence, these forward-looking statements should be considered in light of various important factors, including those set forth in the Group's Annual Integrated Report and Annual Financial Report, published on 30 March 2018, and the Group's Annual Report on Form 20-F filed by Sibanye-Stillwater with the Securities and Exchange Commission on 2 April 2018 (SEC File no. 001-35785). These forward-looking statements speak only as of the date of this announcement. Sibanye-Stillwater undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this

announcement or to reflect the occurrence of unanticipated events, save as required by applicable law.
