

WHO WINS IN A STRIKE? NOBODY

A strike means
**'No-work.
No-pay'**

In a few days you
would lose
more than
what the
current
demand is

The company
cannot
revise its
offer

Entry-level Cat 4 employees will lose

**R552
per day**

– other categories will lose more

During the 5-month
strike in 2018/2019,
employees lost

R1.5 billion in wages

which they will never get back.

Many employees had to go into debt to cover
expenses and are still paying this off

A strike will affect
you, your
family and our
communities

Think carefully about our future and make sure your voice is heard, because.....

THERE ARE NO WINNERS IN A STRIKE
