

# NOBODY WINS

## IN A STRIKE

Know the facts | Thola ulwazi | E ba le tsebo

### What we've offered

R800 monthly increase, including LoA  
 12 x R800 = R9,600 per year  
 R9,600 increase on top of your current guaranteed pay in 1 year  
 R19,200 increase on top of your current guaranteed pay in year 2  
 R28,800 increase on top of your current guaranteed pay in year 3

### The difference between our offer and the AMCU + NUM demand

R13,200 (Demand) - R9,600 (Offer) =  
 R3,600 (Difference per year)  
 R3,600 x 3 = R10,800 (Difference between the demand and offer over 3 years)  
 The demand adds R2.5 billion to our wage bill

By staying on strike until 20 April, Cat 8 employees would have lost the money you would have earned from the offer over three years.

This means that you will earn the same for the next three years as you earned in 2021, even if the offer is accepted.

If the strike continues for longer, you will earn less than you earned in 2021, even if the offer is accepted.

## What Category 8 employees lose every day the strike continues

# Losses per day: R684
