Commentary

1. Statement of compliance

These condensed financial statements for the year ended 30 June 2010 are a summary of the Group's unmodified audited financial statements and are prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to interim financial reporting (IAS 34), the Listings Requirements of the JSE Limited and the Companies Act of South Africa.

2. Accounting policies

The audited results for the year ended 30 June 2010 have been prepared in accordance with the Group's accounting policies which comply with IFRS. The accounting policies adopted are consistent with those applied in the preparation of the audited annual financial statements for the year ended 30 June 2009, except for the amended IAS 1 - Presentation of Financial Statements, the amended IFRS 7 - Financial Instruments: Disclosures and IFRS 8 - Operating Segments which have been adopted for the year ended 30 June 2010.

3. Audit report

The consolidated financial statements for the year have been audited by Deloitte & Touche and their accompanying unmodified audit report as well as their unmodified audit report for this set of summarised financial information, is available for inspection at the company's registered address

4. Corporate governance

The Group subscribes to and complies in all material aspects with the Code on Corporate Governance Practices and Conduct as contained in the King II Report on Corporate Governance. The Group has launched initiatives to understand, align with and incorporate the principles of the King III report into the operations of the board, management and business.

5. Transformation

during the period. The Group is committed to a process of further transformation and economic empowerment of its stakeholders, such that an acceptable balance between the operatives and commercial benefits of such a process can be achieved, thereby ensuring the sustainability of the Group in a competitive market sector.

Management has continued to meaningfully extend its initiatives in employment equity, skills development and corporate social investment

6. Board of directors

Dr. Len Konar has been appointed as non-executive chairman in place of Mr. Vuli Cuba who resigned with effect from 16 October 2009. Mr. Ralph Patmore has also been appointed as non-executive director following the resignation of Mr. Mike Hennessy with effect from 16 October 2009. Total remuneration paid to directors for the year under review amounted to R6,1 million (2009: R5,2 million) and sharebased payments of R0,9 million (2009: R1,6 million) were expensed relating to directors.

7. Cash flow

A significant reduction in inventory levels and an increase in trade and other payables resulted in R230,5 million cash generated from operations (2009: R11,0 million). Cash generated from the continued drive to further reduce inventory levels will be used to reduce shortterm borrowings further.

Mustek has also restructured its long-term finance facilities and were able to repay R207.5 million in long and short-term liabilities which will lead to significant interest savings in future. The borrowing powers of the Group have increased significantly as additional facilities were

8. Corporate activities

The Group acquired 100% of Mustek Capital (Pty) Ltd on 1 June 2010 for R100,0 thousand and disposed of Tier One Electronics (Pty) Ltd on 25 November 2009 for R1,0 million.

9. Operating results Volumes increased by approximately 13%, but a significantly stronger average exchange rate of R7,61 to the US dollar compared to

A review of the overall structure has identified various inefficiencies and duplication of functions. Once-off retrenchment costs of R4,7 million negatively affected profitability and as the process was only completed towards the middle of the financial year, the full benefit will only be achieved in the next financial year. Further benefits include improved working capital management and an elimination of inefficiencies

Distribution, administrative and other operating expenses (excluding foreign exchange profits and losses) decreased by 4,4%.

R9,05 in the previous financial year, negatively affected revenue and led to a 2,1% decrease to R3,410 billion.

Rectron managed to increase its revenue by 8.4% and contributed R35.4 million (2009; R32.2 million) to the Group's net profit despite tough trading conditions with technology becoming more commoditised and consumers spending less. Sound financial management, inventory optimization and a renewed focus on their customers contributed to their continued success.

10. Retirement benefit plan

The Mustek Group Retirement Fund is a defined contribution fund and payments to the plan are charged as an expense as they fall due. The majority of the group's employees belong to this fund. The Group does not provide additional post-retirement benefits.

11. Industry outlook

The provision of internet bandwidth in South Africa has become a recurring theme. Recently, however, rapid development in this arena has seen South Africa's bandwidth increase to almost parity with the rest of the world, and early next year, the country will be in a situation where supply of connectivity per capita will be better than most developed countries. This is having a stimulatory effect on the local industry, with ISP's scrambling to provide uncapped access to end-users. With the cellular operators' ability to provide wireless connectivity, plans are already underway for the launch of 21Mbps and LTE (100Mbps) connections in the next year which will improve user experience tremendously. The price pressure this has created has seen uncapped ADSL being sold at a quarter of the price it was a year ago. This

trend is anticipated to continue, with the price being halved again. It is also encouraging that providers are investigating ways of providing this connectivity to rural communities. Mustek's experience in providing computing to schools in these areas will be invaluable in capitalising on more projects now that connectivity is feasible and more affordable.

All of these developments have not gone unnoticed by the content providers, witnessed by the arrival of www.youtube.co.za, soon to be followed by, inter alia, iTunes, Amazon and Netflix. These rich media content providers stimulate the need for hardware, high capacity hard

drives, improved graphics, larger monitors, etc., which will prove beneficial for Mustek as a hardware vendor. The desktop PC market remains consistent. Large corporate buyers remain committed to the platform due to the control it gives them, a much lower total cost of ownership and superior performance. Corporates have realised that, to extend the life of an asset, PC upgrades should be easily facilitated utilising standard components. Notebooks, apart from memory and hard drives, use proprietary components,

again increasing the total cost of ownership. The Teachers Laptop Initiative has recently been launched and is focused on improving Information and Communications Technology (ICT) in teaching and learning and aims to ensure every teacher owns and uses a laptop, by providing them with a monthly allowance which will cover the purchase costs as well as the costs of connectivity.

12. Group outlook

The Group is focusing on increasing volumes as it remains a driver of performance across our operations.

The Group is placing increased focus on working capital management in order to reduce finance costs further.

Mustek's outlook remains focused on sustainable growth. Opportunities for further optimisation, improved production, further consolidation and cost management will be explored. Cash flow will be used prudently to further reduce our debt.

13. Dividend

The declaration of cash dividends will continue to be considered by the board in conjunction with an evaluation of current and future funding requirements, and will be adjusted to levels considered appropriate at the time of declaration.

Mustek's continued commitments to optimal cash utilisation will mean that cash generated by the operations will be used to fund our growth and reduce our debt. To this end, the final dividend declared by the Board of Directors for the financial year ended 30 June 2010 has been increased to 12 cents per share. Notice is hereby given that a final dividend of 12 cents per ordinary share for the year ended 30 June 2010 is declared, payable to

shareholders recorded in the books of the company at the close of business on the record date appearing below. The salient dates applicable to the final dividend are as follows: Last day of trade cum dividend

First day to trade ex dividend Monday, 4 October 2010 Record date Friday, 8 October 2010 Monday, 11 October 2010

No share certificates may be dematerialised or rematerialised between Monday, 4 October 2010 and Friday, 8 October 2010, both days Where applicable, payment in respect of certificated shareholders will be transferred electronically to shareholders' bank accounts on

the payment date. In the absence of specific mandates, payment cheques will be posted to certificated shareholders at their risk on the payment date. Shareholders who have dematerialised their shares will have their accounts at their Central Securities Depository Participant or broker credited on the payment date.

14. Annual general meeting

The notice of the annual general meeting will be included in the annual report that will be posted to shareholders in due course.

15. Post balance sheet events

There have been no significant events subsequent to year-end up until the date of this report that requires adjustment or disclosure.
