#### **Profile**

Liberty Two Degrees Limited (L2D) is listed on the Johannesburg Stock Exchange (JSE) with a market capitalisation of R6.1 billion at 31 December 2019 (2018: R6.3 billion).

#### **Performance**

L2D Group (L2D) includes 2 Degrees Properties Proprietary Limited (the operating subsidiary), STANLIB REIT Fund Managers (RF) Proprietary Limited (the previous management company) and Liberty Two Degrees Restricted Share Plan Trust (Trust). At 31 December 2019, L2D's 100% South African property portfolio was valued at R10.27 billion (2018: R10.15 billion) and the net asset value per share increased by 2.1%. This includes the acquisition of an additional stake in Botshabelo Mall for R24 million. Following the sale of Century City offices, pending transfer, R123 million of property is now classified as held for sale. Overall property valuations remained flat in comparison to the prior year reflecting the weak fundamentals in the South African economy.

L2D reported net property income (NPI) of R693.6 million for the year ended 31 December 2019 (2018: R589.1 million) which includes a full year relating to the assets acquired on 1 November 2018. The NPI growth normalised for effective ownership is 5.36%. NPI growth was primarily driven by good underlying rental growth and retail space previously in fit-out that is now trading. This is supported by retail trading density growth of 3.6% achieved for the year. The trading density at Sandton City remains strong and grew by 9%. Good retail leasing initiatives resulted in leases covering 149 101m² being renewed in the year (2018: 49 472m²) and a further 37 031m² (2018: 52 557m²) in new tenant lease agreements were concluded across the portfolio, reflecting a healthy demand for rental space at the centres. The gross cost to income ratio for the year has improved to 31.8% (2018: 35.8%) as a result of good cost management initiatives. Profit from operations is up 15.12% from the prior year. As expected and as a result of the full year interest expense on the debt raised in 2018, profit before tax decreased to R534.7 million (2018: 59.86 cents).

As at 31 December 2019, the investment in Edcon is carried at fair value at R17.5 million. L2D considers the carrying value appropriate given the current forecast and outlook.

On 25 July 2019, the Board declared an interim dividend of 29.31 cents per share for the six months ended 30 June 2019. Subsequent to year-end, on 20 February 2020, the Board declared a final dividend of 31.12 cents per share for the six months ended 31 December 2019, which will be paid on 23 March 2020. This brings the full year distribution to 60.43 (2018: 60.00) cents per share which is in line with L2D's guidance to the market.

## **Property portfolio**

The portfolio vacancy rate increased during the year to 4.7% (2018: 3.4%).

Leases covering 149 101m<sup>2</sup> (2018: 49 472m<sup>2</sup>) were renewed during the year at an overall reversion rate of -11.8% (2018: 2.3%).

A further 37 O31m² (2018: 52 557m²) in new tenant lease agreements were concluded across the portfolio during the period.

#### **Commitments**

Capital commitments outstanding amount to R330.6 million (2018: R433.1 million). Capital commitments will be funded from debt facilities.

### **Prospects**

The South African economy remains challenging as evidenced by weak consumer demand. L2D's conservative gearing with LTV at 16% provides a buffer against the current economic climate. The balance sheet capacity and continued operational performance of L2D's defensive portfolio are key differentiators in a difficult trading environment. L2D's South African retail strategy has been validated by the good trading performance in the core retail portfolio evidenced by low retail vacancy rates and positive trading density growth.

Looking forward, L2D will continue to invest in its assets and execute on the experiential retail strategy whilst committing to achieving well defined sustainability targets. L2D uses distribution per share as a relevant measure of financial performance. As a result of the current economic conditions in South Africa, L2D's guidance for the 2020 full-year distribution is to be equivalent to 2019.

This guidance is reliant on the following key assumptions: forecasted net property income is based on contractual rental escalations and market-related renewals, appropriate allowances for vacancies have been incorporated into the forecast, no further dilutionary gearing is introduced and that no major tenant failures will occur. The forecast or any forward looking statements have not been reviewed or reported on by L2D's auditors.

# **Declaration of a cash distribution**

Payment of the distribution will be made to shareholders on Monday, 23 March 2020. In respect of dematerialised shares, the distribution will be transferred to the Central Securities Depository Participant (CSDP) accounts/broker accounts on Monday, 23 March 2020. Certificated shareholders' dividend payments will be posted on or about Monday, 23 March 2020.

Shares in issue at the date of declaration of this distribution: 908 443 335.

L2D's income tax reference number: 9087144235.

In accordance with L2D's status as a REIT, shareholders are advised that the distribution meets the requirements of a 'qualifying distribution' for the purposes of section 25BB of the Income Tax Act, No. 58 of 1962 (Income Tax Act). The distribution on the shares will be deemed to be a dividend, for South African tax purposes, in terms of section 25BB of the Income Tax Act.

The distribution received by or accrued to South African tax residents must be included in the gross income of such shareholders and will not be exempt from income tax (in terms of the exclusion to the general dividend exemption, contained in paragraph (aa) of section 10(1)(k)(i) of the (Income Tax Act) because it is a distribution distributed by a REIT. This distribution is, however, exempt from dividend withholding tax in the hands of South African tax resident shareholders, provided that the South African resident shareholders provide the following forms to their CSDP or broker, as the case may be, in respect of uncertificated shares, or the company, in respect of certificated shares:

- (a) a declaration that the distribution is exempt from dividends tax; and
- (b) a written undertaking to inform the CSDP, broker or the company, as the case may be, should the circumstances affecting the exemption change or the beneficial owner cease to be the beneficial owner, both in the form prescribed by the Commissioner for the South African Revenue Service. Shareholders are advised to contact their CSDP, broker or the company, as the case may be, to arrange for the abovementioned documents to be submitted prior to payment of the distribution, if such documents have not already been submitted.

Distributions received by non-resident shareholders will not be taxable as income and instead will be treated as an ordinary dividend which is exempt from income tax in terms of the general dividend exemption in section 10(1)(k)(i) of the Income Tax Act.

Assuming dividend withholding tax will be withheld at a rate of 20%, unless the rate is reduced in terms of any applicable agreement for the avoidance of double taxation (DTA) between South Africa and the country of residence of the shareholder, the net dividend amount due to non-resident shareholders is 24.89600 cents per share. A reduced dividend withholding rate in terms of the applicable DTA may only be relied on if the non-resident shareholder has provided the following forms to their CSDP or broker, as the case may be, in respect of uncertificated shares, or the company, in respect of certificated shares:

- (a) a declaration that the distribution is subject to a reduced rate as a result of the application of a DTA; and
- (b) a written undertaking to inform their CSDP, broker or the company, as the case may be, should the circumstances affecting the reduced rate change or the beneficial owner cease to be the beneficial owner, both in the form prescribed by the Commissioner for the South African Revenue Service.

  Non-resident shareholders are advised to contact their CSDP, broker or the company, as the case may be, to arrange for the abovementioned documents to be submitted prior to payment of the distribution if such documents have not already been submitted, if applicable.

Basic earnings per share is basic earnings attributable to shareholders divided by the weighted average number of shares excluding treasury shares in issue during the year.

Headline earnings per share is a disclosure requirement in terms of the JSE Listings Requirements for companies listed on the JSE. Circular 1/2019, issued by the South African Institute of Chartered Accountants at the request of the JSE, stipulates the requirements for the calculation of headline earnings.

Headline earnings per share is calculated by dividing the headline earnings by the weighted average number of shares in issue during the period excluding treasury shares.

## Fair value hierarchy for financial instruments and investment property

IFRS 13 requires that an entity discloses for each class of assets and liabilities measured at fair value, the level in the fair value hierarchy into which the fair value measurements are categorised in their entirety. The fair value hierarchy reflects the significance of the inputs used in making fair value measurements.

The fair value hierarchy has the following levels:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of trade and other receivables, cash and cash equivalents, trade and other payables approximate their carrying value and are not included in the hierarchy analysis as their settlement terms are short-term and therefore from a materiality perspective fair values are not required to be modeled.

# **Changes in accounting policies**

L2D has adopted all the new, revised or amended accounting pronouncements as issued by the International Accounting Standards Board (IASB) which were effective for L2D from 1 January 2019. In particular, the following standards had an impact on L2D's consolidated annual financial statements:

#### **IFRS 16 Leases**

#### Impact on the consolidated annual financial statements

#### Lessee accounting

IFRS 16 introduces a single, on balance sheet lease accounting model for lessees. L2D elected to adopt IFRS 16 retrospectively from 1 January 2019 using the modified retrospective approach without restating comparative figures. There was no impact to opening retained earnings on adoption of IFRS 16. IFRS 16 replaces the existing lease standard and the related interpretations. In applying IFRS 16 for the first time, L2D used certain practical expedients permitted by the standard, namely a single discount rate for leases with reasonably similar characteristics. All leases that met the definition of a lease under IAS 17 were carried forward as a lease under IFRS 16. The liability was measured at the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019. The incremental borrowing rate applied to the lease liability on 1 January 2019 was 7.56%. This rate was obtained from STANLIB Wealth Management Limited who is the primary lessee of the leased asset. L2D will recognise a right-of-use asset and lease liability for its operating lease of property. The nature of expenses related to this lease will now change from an operating lease charge to a depreciation charge for the right-of-use asset and interest expense for the lease liability.

#### **Lessor accounting**

Lessor accounting remains substantially unchanged and L2D, as a lessor, has operating leases only.
