Value of put option	R11 250 000
Mr Stewart entered into a collar hedging arrangement with a financial institution on 20 December 2021. The total amount of shares originally hedged have been retained by Mr Stewart.	

In terms of paragraph 3.66 of the Listings Requirements, the necessary clearance to deal in the above securities has been obtained.

About Sibanye-Stillwater

Sibanye-Stillwater is a multinational mining and metals processing group with a diverse portfolio of operations, projects and investments across five continents. The Group is also one of the foremost global recyclers of PGM autocatalysts and has interests in leading mine tailings retreatment operations.

Sibanye-Stillwater has established itself as one of the world's largest primary producers of platinum, palladium, and rhodium and is a top tier gold producer. It also produces and refines iridium and ruthenium, nickel, chrome, copper and cobalt. The Group has recently begun to diversify its asset portfolio into battery metals mining and processing and increase its presence in the circular economy by growing its recycling and tailings reprocessing exposure globally.
