NEWS RELEASE

AngloGold Ashanti Provides Update on Proposed Restructuring, and Withdraws Cautionary Announcement

(PRESS RELEASE) – Following the announcement of the proposed corporate restructuring and capital raising on 10 September 2014, AngloGold Ashanti has, as planned, engaged extensively with shareholders holding almost two-thirds of its issued share capital, to solicit feedback on these proposals. The proposed restructuring would create a London-listed entity to house the company's international assets with the South African assets remaining at AngloGold Ashanti, thus creating two simpler and more focused entities.

There has been broad support for the strategic logic of the restructuring, but a number of shareholders have expressed concerns about certain aspects of the proposed transactions, in particular the quantum of the equity capital raising needed to enable the restructuring to be implemented in accordance with regulatory and other requirements.

AngloGold Ashanti has, therefore, decided not to proceed with the restructuring and capital raising, as currently proposed. The company will continue to evaluate all options to address debt levels and unlock value, taking into account the feedback from its shareholders and its business needs.

AngloGold Ashanti has a world class portfolio of assets, growth projects and an excellent track record of transforming its business to improve efficiency and competitiveness over the past two years, to deliver a record safety performance alongside production growth, operating and overhead cost reduction and improved cash flows.

Reducing current high debt levels and improving overall financial flexibility remain priorities for AngloGold Ashanti, which will now intensify its focus on value creation opportunities deliverable within its current structure. The company will continue to aggressively identify and implement further operational efficiencies, reduce overhead structures and pursue other initiatives to improve underlying business performance. The company will also accelerate actions to strengthen its balance sheet including debt reduction, portfolio simplification and options to unlock value from its Colombian portfolio.

AngloGold Ashanti's Board and management would like to thank shareholders for their ongoing input and stakeholders, regulators and representatives of organised labour, for their support.

Further to the cautionary announcement dated 10 September 2014, caution is no longer required to be exercised by shareholders when dealing in AngloGold Ashanti securities.
