

## ***Driving value across an African gold portfolio***

### **Mining Indaba**

*February 2012*

## **Disclaimer**

Certain statements made in this communication, including, without limitation, those concerning the economic outlook for the gold mining industry, expectations regarding gold prices, production, cash costs and other operating results, growth prospects and outlook of AngloGold Ashanti's operations, individually or in the aggregate, including the completion and commencement of commercial operations of certain of AngloGold Ashanti's exploration and production projects and the completion of announced mergers and acquisitions transactions, AngloGold Ashanti's liquidity, capital resources and capital expenditure and the outcome and consequences of any litigation or regulatory proceedings or environmental issues, contain certain forward-looking statements regarding AngloGold Ashanti's operations, economic performance and financial condition. Although AngloGold Ashanti believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions including environmental approvals and actions, fluctuations in gold prices and exchange rates, and business and operational risk management. For a discussion of certain of these and other factors, refer to AngloGold Ashanti's annual report for the year ended 31 December 2010, which was distributed to shareholders on 29 March 2011 and the company's 2010 annual report on Form 20-F, which was filed with the Securities and Exchange Commission in the United States on May 31, 2011. These factors are not necessarily all of the important factors that could cause AngloGold Ashanti's actual results to differ materially from those expressed in any forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results. AngloGold Ashanti undertakes no obligation to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after today's date or to reflect the occurrence of unanticipated events. All subsequent written or oral forward-looking statements attributable to AngloGold Ashanti or any person acting on its behalf are qualified by the cautionary statements herein.

This communication contains certain "Non-GAAP" financial measures. AngloGold Ashanti utilises certain Non-GAAP performance measures and ratios in managing its business. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the reported operating results or cash flow from operations or any other measures of performance prepared in accordance with IFRS. In addition, the presentation of these measures may not be comparable to similarly titled measures other companies may use.

AngloGold Ashanti posts information that is important to investors on the main page of its website at [www.anglogoldashanti.com](http://www.anglogoldashanti.com) and under the "Investors" tab on the main page. This information is updated regularly. Investors should visit this website to obtain important information about AngloGold Ashanti.

## AGA Technology and Innovation Consortium (ATIC)

*A research work on alternative and unconventional mining technology ...*

*...enabling a long term business from the South African deep level resources.*

20

## Greenfields and brownfields exploration in Africa

*High potential for new discovery from Saraya, Kounkoun and AGK Kilo.....*

### Sub-Saharan Africa

- Deliverables / Targeting
  - Two or more >3Moz orogenic gold deposits
- Guinea
  - High potential projects – Saraya and Koun Koun
  - Aggressive exploration programs in Blocks 2/3/4 (1,685km<sup>2</sup>)
  - New oxide-sulphide value options
- DRC (AGK JV)
  - Control of greenstone belt over 5,880 km<sup>2</sup>
  - Regional exploration defines drill-ready project pipeline
  - Au assays from regional drilling and trenching support potential
- Tanzania
  - Securing options – two drill ready projects

### Middle East and North Africa (Alliance with Thani Investments)

- Projects advanced at Hodine and Wadi Kareem concessions.
- Hutite target (on Hodine concession) has >12,000m diamond drilling done.
- Mineralisation at Hutite extends over 1.6km strike; promising results.
- Early stage exploration in Eritrea, Ethiopia; target generation Saudi Arabia.

*...with work prioritised for new discoveries.*

21

## Medium term project capex outlook

*With the foundation laid for a strong performance across Africa...*

### Project Capex Distribution

*...AngloGold Ashanti will remain an enthusiastic investor on the continent.*

22

## Compelling value

# Superior

- ✓ **Operating Performance**
- ✓ **Financial Performance**
- ✓ **Growth Profile**

*...demonstrating what can be delivered...with our partners...in the world's most significant minerals development region.*
