AngloGold Ashanti Limited

Abstract from the IBIS Assurance Statement to AngloGold Ashanti's Management relating to its implementation of the World Gold Council Conflict-free Gold Standard

IBIS was commissioned by AngloGold Ashanti Limited (AGA) to conduct an independent third-party assurance engagement in relation to selected sustainability information in its annual Integrated Report for the 2023 financial year, which inter alia include the implementation of the World Gold Council Conflict-free Gold Standard as disclosed in AGA's Conflict-Free Gold Report for 2022.

AGA is responsible for the preparation and presentation of the report on the Conflict-free Gold Standard implementation as well as the required disclosure thereon. This responsibility includes establishing appropriate risk management and internal controls from which the reported information is derived. To this end, IBIS assessed AGA's implementation and methodology for preparing the Conflict-Free Gold Report for 2022 in accordance with the Conflict-Free Gold Standard criteria.

The assurance engagement (performed in accordance with AA1000AS Type II - Moderate Assurance level requirements) concludes that AGA's implementation and methodology applied for the preparation of the Conflict-Free Gold Report for 2022 is in accordance with the Conflict-Free Gold Standard criteria.

IBIS full assurance statement in this regard can be viewed in AGA's published Sustainability Report for 2023.
