

Media Release

LONMIN DISMISSES AIDC REPORT

2 June 2015

Lonmin notes with disappointment the report released by the Alternative Information Development Centre (AIDC) today which contains unfounded and false allegations about the company.

Lonmin pays tax fully and properly in all jurisdictions in which it operates. Its financial statements are prepared in accordance with the International Financial Reporting Standards and assured by independent external auditors.

Lonmin hopes that AIDC stops making these baseless allegations.

Notes to editors

Lonmin, which is listed on both the London Stock Exchange and the Johannesburg Stock Exchange, is one of the world's largest primary producers of PGMs. These metals are essential for many industrial applications, especially catalytic converters for internal combustion engine emissions, as well as their widespread use in jewellery.

Lonmin's operations are situated in the Bushveld Complex in South Africa, where nearly 80% of known global PGM resources are found.

The Company creates value for shareholders through mining, refining and marketing PGMs and has a vertically integrated operational structure - from mine to market. Lonmin's mining operations extract ore from which the Process Division produces refined PGMs for delivery to customers. Underpinning the operations is the

Shared Services function which provides high quality levels of support and infrastructure across the operations.
