30 May 2014

### **Lonmin Dismisses Allegations**

Lonmin Plc today dismissed allegations made by AMCU negotiator, Mr Brian Ashley, and subsequently repeated by the Alternative Information and Development Centre, as without substance and completely false. As a public company, Lonmin's financial statements are subject to regular and thorough auditing processes by an independent auditor, and are submitted and carefully assessed by the South African tax authorities. The Company's financial statements and accounts are readily available at [www.lonmin.com](http://www.lonmin.com).

### **Notes to editors**

Lonmin, which is listed on both the London Stock Exchange and the Johannesburg Stock Exchange, is one of the world's largest primary producers of PGMs. These metals are essential for many industrial applications, especially catalytic converters for internal combustion engine emissions, as well as their widespread use in jewellery.

Lonmin's operations are situated in the Bushveld Complex in South Africa, where nearly 80% of known global PGM resources are found.

The Company creates value for shareholders through mining, refining and marketing PGMs and has a vertically integrated operational structure - from mine to market. Lonmin's mining operations extract ore from which the Process Division produces refined PGMs for delivery to customers. Underpinning the operations is the Shared Services function which provides high quality levels of support and infrastructure across the operations.
