

## REGULATORY RELEASE

---

23 June 2014

### Wage Negotiations Update

Lonmin Plc (“Lonmin” or “the Company”) announces that, following the in principle agreement reached last week with the leadership of the Association of Mineworkers and Construction Union (“AMCU”), further progress towards a return to work has been made. AMCU will today hold a further meeting with its members.

Lonmin expects to receive feedback from AMCU after the meeting has concluded. A further and more detailed announcement will be made when appropriate.

#### Notes to editors

Lonmin, which is listed on both the London Stock Exchange and the Johannesburg Stock Exchange, is one of the world's largest primary producers of PGMs. These metals are essential for many industrial applications, especially catalytic converters for internal combustion engine emissions, as well as their widespread use in jewellery.

Lonmin's operations are situated in the Bushveld Complex in South Africa, where nearly 80% of known global PGM resources are found.

The Company creates value for shareholders through mining, refining and marketing PGMs and has a vertically integrated operational structure - from mine to market. Lonmin's mining operations extract ore from which the Process Division produces refined PGMs for delivery to customers.

Underpinning the operations is the Shared Services function which provides high quality levels of support and infrastructure across the operations.
